FAQ

Q: Which SIM card is required?

A: myFirst Fone D2 works with nanoSIM cards that support 2G networks (GSM 900/1800/850/1900 MHz)

Q: How long does the battery last in standby mode?

A: Actual working time varies based on the smartwatch's settings and the frequency of the location updates. myFirst Fone D2 is rated for up to 72 working hours in standby mode.

Q: Are there any age requirements to use the myFirst Fone D2?

A: There are no age requirements, but the device is best suited to children between 3 to 12 years old.

Q: Are the materials that myFirst Fone D2 made from safe?

A: All the materials used in the myFirst Fone D2 production comply with European standards.

Q: Can myFirst Fone D2 harm my child's health with radiation?

A: The myFirst Fone D2 cell module's radiation level is much lower than the limit set by the European standard.

Q: Is myFirst Fone D2 waterproof?

A: myFirst Fone D2 is protected from sweat, drips of water, rain and can be briefly submerged into the water to a depth of up to 1 meter, however the device should be removed before swimming or taking a shower.

Q: What should I do if QR code scan fails?

A: Repeat the scan in better lighting conditions, adjust the focus of your smartphone's camera to correctly focus on the QR code. Alternatively, you can input the pairing number manually. And also check the availability of Internet traffic and the ability of the SIM card to work in 2G networks.

Q: Is connection to the Internet required for the geo-positioning function to work?

A: Connection to the Internet is required to send the location data.

Q: Can the watch's battery explode when exposed to high temperature or during charging?

A: myFirst Fone D2 is equipped with a safe and reliable helium polymer lithium ion battery, which is safer than the standard lithium battery used in many modern mobile devices. The helium polymer lithium ion battery uses special colloidal electrolyte, which does not emit gas even if the liquid part of the battery is boiling, granting safety and eliminating the risk of an explosion. This type of battery has shown impressive results in all kinds of safety tests, including the heating, poking and hitting. However, you should not carry out any tests yourself.

Remarks

- The manufacturer holds the right to change the construction, included accessories and contents of the box, or the manufacturing technique without any notice in order to improve any properties of the device, given that this does not void any quality standards and laws of the country of manufacturing/transit/sale.
- Do not let small children and pets to play with myFirst Fone D2. The device contains small parts, which can cause harm.
- myFirst Fone D2 is IP65 splash proof. The device is protected from drips of water, rain, sweat, but the watch should be removed before swimming or taking a shower.
- In case of submersion, remove the device from the water immediately, switch it off and clean with a dry cloth.
- Do not submerge the device into salt water.
- Staying indoors, atmospheric conditions, as well as other signal distortion sources can harm the GPS tracking accuracy.
- Keep away from fire and high temperatures.
- Do not allow dust or dirt to enter the device.
- Do not drop, hit or shake the device. Careless handling can lead to damage of the integrated board and mechanical parts.
- Charger output must be: 5V 1A (included USB charging device).

- Make sure to input the correct phone number including the country code. For example: + (country code) xxxxxxxxx. Do not use symbols such as '(', ')', '-', '.'.

- myFirst Fone D2 works on 2G networks. Photo sharing function, calls and automatic updates can consume a large amount of data. Choose the appropriate carrier plan and set the Wi-Fi passwords for frequently visited places.

Regulatory Conformance

Hereby, Oasis Asia Pte Ltd declares that the radio equipment type KW1303 is in compliance with Directive 2014/53/EU. Note: Observe the national local regulations in the location where the device is to be used. This device may be restricted for use in some or all member states of the European Union (EU).

FCC

This equipment complies with FCC RF radiation exposure limits set forth for an uncontrolled environment. This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Note: The manufacturer is not responsible for any radio or TV interference caused by unauthorized modifications to this equipment. Such modifications could void the user's authority to operate the equipment.
