Basic functions

01 Power on, Bluetooth connection
---Follow the steps(Please make sure that your phone supports Bluetooth connections)
1.Power on: Open the charging case and the earbuds will turn on automatically.The earbuds enter the pairing mode automatically while the charging case LED indicator flashes alternately with white and orange light.
2. Activate the phone's Bluetooth-connection function and search for "HAVIT OpenBuds 1" referring to your phone Instructions.Click "HAVIT OpenBuds 1" to connect.
3. The earbuds can automatically reconnect with the last device that you had paired. "HAVIT OpenBuds 1" will disconnect when leaving the working range of Bluetooth. The earbuds will reconnect automatically if you come back to the range in 3 minutes.

02 Power off
Put the earbuds into the charging case and close the lid of case, they will automatically shut off.

03 Answer incoming call
Double tap the left or right MFB to answer incoming call.

04 End the call
Double tap the left or right MFB to end the current call.

05 Decline incoming call
Long press left or right MFB for 1s to reject a call.

06 Activate the voice assistant
Both earbuds work: Triple tap the left MFB to activate voice assistant.
Single earbud works: Triple tap the MFB of working earbud.

07 Switch on/Switch off game mode
Triple tap the right MFB to switch on/switch off game mode.

08 Music control
1. Play/Pause: Double tap the left or right MFB.
2. Previous song:Long press the left MFB for 1s.
3. Next song: Long press the right MFB for 1s.

Note: If only one earbud works, long press the MFB of working earbud for 1s to switch to next song.

09 Charging
Case
Charge the case using the Type-C cable connected to a computer or wall harger.When the case is charging, the orange light of the case flashes in a breathing pattern, and turns off after fully charged.

Earbuds
The earbuds make a warning tone to warn low power.Put the earbuds to the case to charge.

10 Mono mode (take out any earbuds as a unilateral Bluetooth earbud)
(note: single channel mode only needs to remove one earbud from the charging case; If two earbuds are removed before connection, the earbud will be used in TWS mode by default, and the TWS connection will be automatically realized.)
1. Take out one earbud from the charging case,the earbud automatically turns on and reconnects to previous connected devices.
2. Switch from one earbud to the other earbud when playing music, taking out the other

earbud from the charging case and these two earbuds will connected automatically. Both earbuds will play music automatically and then put the earbud which do not need anymore into the charging case and the switching process completes.
(note: Call mode is applicable)
3. Please refer to the TWS mode for more functions.

11 Restore factory settings
If the earbuds can't pair frequently, please restore the factory settings. Put both of the earbuds into charging case and close the cover.Open the case again,within 3 minutes, long press the charging case reset button for 5 seconds,the indicator of the case flashes alternately with white and orange light,the earbuds will enter the pairing mode again,search the "HAVIT OpenBuds 1" Bluetooth pairing name with the mobile phone and connect again.

12 Dual device connection
The earbuds support connecting two device simultaneously.
1. In dual connection mode, when phone A is clicked to play a song, phone B will

automatically stop playing.
2. If there is an incoming call from phone B while phone A is playing in dual connection mode, the earbuds won't display an incoming call prompt. Single tap the left or right MFB to answer phone B's incoming call. Phone A's song playing status will be restored automatically once the call from phone B ends.
3. If there is an incoming call from phone A while phone B is calling in dual connection mode, the earphones won't display an incoming call prompt. Long press left or right MFB can reject phone B's call.

Specifications:
